## The Cost of Safety Is Real.

### How Much Is Safety Costing Your Company?

- Man hours spent putting equipment on
- Man hours enforcing safety compliance
- In-house safety evaluations
- Safety write-ups
- Recurring purchasing of safety supplies
- L&I Claims / Insurance Premiums
- Maintenance of safety supplies
- Time lost from injuries

**Safe Tee Shirts with Cut Resistant Sleeves are an all-in-one solution to using frustrating sleeves that need constant adjusting and straps or clips to stay on.**

With the added benefits of:

1. Providing a Uniformed Look for Your Crew
2. Automate Conformance to Safety Policies
3. Providing Longer Lasting Protection
4. Saving Your Company Money

Our research shows the average employee goes through a min. of 1 pair of sleeves every two weeks at an average cost of \$16 per pair (incl. extra attachments like straps/clips).

100 Employees	\$41,600 Annual Expense for Sleeves
VS	\$13,500 Annual Expense for Safe Tee Shirts w/Sleeves
